MEMORANDUM FOR: Director of Central Intelligence
SUBJECT: Briefing Notes for NRO EXCON
Meeting, 21 January

There are no new topics for discussion at this week's EXCON meeting and we would therefore suggest that the topics we submitted for the 12 January meeting might still be pertinent. These items are attached for your information. We did note in reviewing the 12 January EXCON minutes that the subject of Search Satellites as regards General Greer's work in this area would come up. However, not much discussion ensued. We still feel that the briefing of the search system studies being undertaken by General Greer is in order as requested in the attachment.
